I forgot my NoodleBib Password!!

If you try to login to NoodleBib and you can’t recall your password from last year...

Click the blue link that says I forgot my password:

You will see this screen. Click on the Retrieve Password button.

The screen will appear and this is where you enter your ID and the last 4 digits of your phone number.

You will receive a hint that should help you login! If that isn’t enough help you will have to ask a Librarian to reset your password (it can take a day or so, try and remember!!)
